

REDEFINING CHARTERED ACCOUNTANCY

Bridging Traditional Accounting Methodologies with Artificial Intelligence & Process Automation

MITT & CO, Chartered Accountants is a next-generation institutional practice headquartered in Navrangpura, Ahmedabad. Established with an uncompromising vision to modernize professional financial services, the firm unites qualified Chartered Accountants, Certified Forensic Auditors, GST litigation defenders, and Artificial Intelligence specialists under a single cohesive leadership.

In an era of rapid digital convergence, traditional statutory reporting is no longer sufficient. Organizations demand dynamic fiscal intelligence, continuous automated control validation, and proactive regulatory engineering. MITT & CO addresses this imperative by deploying rigorous audit frameworks powered by proprietary generative AI models, Robotic Process Automation (RPA), and specialized tax software utilities.

1,500+

CAs & Tax Professionals Mentored in AI
(And Continuously Growing)

10+ Years

Of Institutional Audit, Taxation, Forensic Investigations & AI Tech Advisory Excellence

Our Institutional Vision & Mission

Our Vision: To become one of India's most respected technology-driven Chartered Accountancy and Business Consulting firms by delivering innovative audit, advisory, financial, and AI-powered business solutions that create lasting value for organizations worldwide.

Our Mission: To uphold uncompromising ethical governance, strengthen corporate internal controls, and empower progressive enterprises with future-ready AI, automation, and global financial architectures that ensure lifelong regulatory resilience.

Uncompromising Ethics

Strict adherence to ICAI auditing governance standards, rigorous internal controls, and completely transparent financial reporting.

AI-First Engineering

Integrating advanced Excel algorithms, generative AI models, and Robotic Process Automation directly into enterprise financial workflows.

Client Advocacy

Partner-led direct advisory, authoritative GST tribunal litigation defense, and continuous multi-jurisdictional compliance stewardship.

UNABRIDGED PRACTICE CAPABILITIES

Specialized Multidisciplinary Expertise Across Four Core Pillars

I. Statutory Audit & Governance

- **Internal & Management Audits**
Evaluating corporate risk frameworks, operational efficiency metrics, and internal financial controls.
- **Forensic Audit & Fraud Investigation**
Applying investigative data analytics to detect fund diversion, financial irregularities, and asset embezzlement.
- **Hospital & Healthcare Audits**
Diagnostic reviews of doctor revenue-sharing models, billing ledgers, pharmacy inventory, and medical compliance.
- **Educational Trust Advisory**
Statutory compliance, grant utilization, accounting, and governance for universities, schools, and philanthropic trusts.
- **HR & Payroll Compliance Audit**
Reviewing labor statutes, salary structures, tax withholdings, and personnel governance records.

II. Indirect Tax & GST Litigation

- **GST Adjudication & Tribunal Defense**
End-to-end legal representation during scrutiny assessments, audit enforcement, and show-cause notices.
- **Strategic Advisory & Structuring**
Proactive guidance on HSN classification, place of supply determinations, and multi-state registrations.
- **ITC Diagnostic Health Checks**
Exhaustive vendor invoice reconciliations to eliminate Input Tax Credit leaks and optimize working capital.
- **Specialized Refund Execution**
Accelerated processing of tax refunds across export operations, inverted duty structures, and SEZ transfers.
- **Section 65 GST Audit Representation**
Formulating authoritative departmental audit responses and statutory reconciliations.

III. AI & Process Automation

- **AI Strategy & RPA Bots**
Automating repetitive corporate accounting and invoicing routines via Robotic Process Automation.
- **Predictive Financial Forecasting**
Building customized executive CFO dashboards and machine learning liquidity models.
- **Custom Software Development**
Architecting secure web applications, automated Excel engines, and direct ERP integrations.
- **Corporate AI Enablement Workshops**
Equipping finance teams with practical mastery in Microsoft Copilot, ChatGPT Enterprise, Google Gemini, and Claude AI.

IV. Global Accounting & Advisory

- **Cross-Border Bookkeeping**
End-to-end ledger management, payroll coordination, and bank reconciliations for global enterprises.
- **Multi-Jurisdiction Mastery**
Serving corporate operations across the USA, UK, Canada, Australia, and UAE under GAAP and IFRS standards.
- **Cloud Platform Excellence**
Seamless institutional utilization of QuickBooks Online, Xero, Sage Enterprise, and Zoho Finance.
- **Virtual CFO & Closing**
Timely month-end management accounts, variance analysis, and executive investor reporting.
